

Trellidor: Choose leading brands for long term security

When times are tough it's tempting to 'buy down' in the search for short-term financial savings.

When it comes to security, though, the costs could be far greater in the long run.

In fact, only thieves see the value in buying cheap security barriers. And then there is the risk of corrosion, no back-up service when things go wrong, and no one to turn to years down the line when keys are lost, or criminals break through poorly secured doors or windows, leaving you vulnerable and exposed.

Trellidor is serious about your security. As the leading brand in this industry, we

provide high-quality products and dependable after-sales service. And we have a product range to suit all budgets. Call us in for a **FREE** security assessment and we'll help you

choose barriers that will be uncompromising in doing their job for many years to come.
