put trellidor to the test

When it comes to protecting your family, don't compromise, put Trellidor to the test.

Choosing a security solution is one of the most important decisions you will ever make so why not trust Trellidor: the market leader in home and business security for over 30 years.

Trellidor understands that everyone's security concerns are different, which is why they have developed a wide range of products to suit varying needs.

Custom made Trellidors can be catered to suit low and high risk environments plus there's a range of options available, from hinge away units to curved and angled ones.

Forerunners in product innovation, the versatile company sets its standards according to ever-changing market needs. Their sophisticated emergency reporting system, which works via their nationwide franchise network, ensures that they stay well ahead of developing crime trends.

For total peace of mind, put your faith in a name that will keep you safe.

Trellidor prides itself in both its product and the people that bring it to you. Their product's reliability and strength are what makes it the best on the market. For the ultimate security solution, there is only one genuine Trellidor.
