

TRELLIDOR COTTAGE GUARD

The Trellidor Cottage Guard premium quality burglar bar system has few rivals on the market in terms of strength. It is manufactured using square aluminium tubing reinforced with a steel bar through the centre. This burglar proofing provides exceptional window protection in terms of strength under attack. It can be manufactured to match existing cottage pane windows. It can also create a cottage pane effect if installed to protect large and vulnerable expanses of glass.

All Trellidor security barriers are manufactured at our LPCB ISO audited factory. The manufacturing process includes pre-treatment for enhanced corrosion and UV resistance before undergoing powder coating. This helps to retain the quality finish and increases the lifespan of the barrier, making them suitable for both coastal and inland conditions.

FEATURES AND BENEFITS

- Fully framed and fixed to substrate on all four sides for enhanced strength
- Aluminium square tubing with a reinforced steel bar through the centre provides unrivalled strength
- Installed without welding so there are no weak points in terms of corrosion
- Suitable for high corrosion areas
- Custom made for best fit
- Openings comply with insurance specifications
- Easy to clean and maintain
- Suitable for residential as well as commercial premises
- Carry warranties against defective workmanship, materials and corrosion

WARRANTY

With the correct maintenance, our products will help keep both corrosion and criminals at bay. Ask your Trellidor Security Consultant about our recommended maintenance regime to ensure the validity of the full warranty.

- **Materials** **Coastal** - 3 years **Inland** - 5 years

Trellidor, Cottage Guard and The Ultimate Crime Barrier are registered trademarks of Trellidor (Pty) Limited. As a conscientious consumer please remember that given enough time and the right tools, all security barriers can be breached no matter how well they're constructed. As a responsible manufacturer, however, we endeavour to design, engineer, test and install all our products to give our customers the best possible security barriers the technology at the time allows.
