SHUTTERGUARD® ALUMINIUM SECURITY SHUTTERS

ShutterGuard® Aluminium Security Shutters are a savvy, stylish, safety solution for windows or doors – offering security without compromising on the aesthetics of your home, commercial or retail space.

The patented Gear-lock keeps the shutters in place. A 6cm patented bolt secures the shutters to the floor, leaving no leverage to lift the lock out of the track. A 3.4cm bolt secures the top track when locked. The Cisa system allows you to lock the shutters with a unique security key. Should you wish to have a double-sided lock please request this with us.

HURRICANE ALUMINIUM SHUTTERS

The folding louvred Hurricane shutters will open up any space, letting the outside in, while controlling the light, noise and temperature of your room.

Hello sunshine, goodbye dark and stormy days. With Taylor's Hurricane Shutters you can weather the storms and bask in sunlight on the lovely days. Hurricane Aluminium Shutters were originally designed to protect windows and doors from storms and high winds without compromising the aesthetics of a space. Suitable for both homes and offices, these stylish shutters, made entirely from aluminium, are not only beautiful but are functional, durable, won't rust, are easy to clean and come with up to 10-year warranties.

THERMOWOOD®

A breath of fresh air.

THERMOWOOD® SHUTTERS

Thermowood® Shutters are practical custom-made louvre door shutters, manufactured from a durable specially engineered wood substitute – extruded PVC – that has been thoroughly tested under stringent humid, hot and dry conditions to ensure longevity.

Natural light. Privacy on demand. Modern day living with our beautiful climate, begs for spaces to be opened up to let in natural light and fresh air while maximising the views. Retractable, stacking shutters merge indoor and outdoor living, extending your living space.

TECHNICAL SPECIFICATIONS

UV Blockage:	100% when closed
Weight:	8 kg/m ²
Min/Max Width:	240 - 600mm
Min/Max Height:	450 - 2900mm

-  RUSTPROOF
-  OUTDOOR
-  INDOOR
-  CUSTOM COLOURS
-  NATURAL TIMBER WOOD

TIMBER WOOD SHUTTERS

Beautifully finished and manufactured in South Africa from hand-selected solid timber, our Timber Wood Range of shutters is 100% custom made. For those whose sense of style often outweighs their budget, these shutters offer a stylish, yet affordable solution.

They are available in all the configurations you have come to expect from Taylor; bifold, bypass, slider, cottage style and cottage arch. But our timber range also offers you further design flexibility by adding a variety of shapes like circular, triangle, half circles - in fact, practically any shape you can think of.

Developed at our design and manufacturing centre in South Africa, our timber range will appeal to those with a keenly aesthetic eye. Here, fine raw materials are beautifully crafted to ensure they aren't just practical but desirable too. Style should not sacrifice the ability to withstand inclement weather conditions, so these shutters are suited to both indoors and exteriors. Our components and materials are up to 30% thicker and more robust than imported alternatives. This continues our now legendary reputation for manufacturing to the highest standards of quality, backed by a full 5-year warranty.

TECHNICAL SPECIFICATION

UV Blockage:	100% when closed
Max Panel Width:	850mm
Max Panel Height:	2900mm

TIMBER WOOD SHUTTERS

*FURTHER COLOUR CUSTOMISATION OPTIONS

- Paint Timber Colour Match at no extra cost - we can match your shutters to a Plascon or Dulux paint colour (please supply us with the code and brand name of your paint).
- Stain Timber Colour Match: our Timber Wood Stained Shutters can be tailored to suit your other wood products (please supply a sample of your wood/colour; no extra cost but please allow an extra 5 days of production time).
- Finishing Frame Selection: Bullnose, Chamfer and Pattern: colour-matched to your order.

PLEASE NOTE

- Stained Timber Shutters will have a 10% surcharge due to the fact that we spend additional time sourcing wood grain to match. Stained finishes also require an extra 5 days production time.
- Custom shaped finishes (arches, triangles, circles, half circles etc.) have a 10% surcharge. Please allow an extra 5 days of production time.
- 25% premium for external Timber Shutters as we use a specifically sourced Timber that differs from our internal Timber Wood.

Security	ShutterGuard® is a security shutter system which includes a patented Taylor 2-way aluminium gear-lock system. 6cm patented bolt secures shutters to the floor while a 3.4cm bolt secures the shutters to the top track	Hurricane Shutters can only be considered a security shutter if a louvre lock is added. Should you wish to add louvre locks you are able to, to secure your louvres shut*	Thermowood® is not a security shutter system	Timber Wood Shutters are not a security shutter system

*Optional extras for Hurricane Shutters include: Astragal Frame to remove light gap between shutter panels and louvre locks to lock louvres.

**Custom colours and frame shapes are available at a surcharge and will add an extra 1 week to the lead time.

QUALITY. INNOVATION. TRUST.

WHO ARE WE?

For 60 years Taylor has been synonymous with providing service excellence and innovative, elegant, quality products. Be it stylish aluminium or wood-substitute shutters, contemporary security gates, the streamlined simplicity of venetian, vertical, roller or woven blinds. Taylor has the perfect solution for your home or office.

Taylor innovation is savvy – merging design and functionality to provide stylish, sleek and practical window and door covering custom-made solutions.

WHY WE'RE DIFFERENT?

We know everyone has unique tastes so we work alongside home owners, designers and architects to provide Taylor-made-to-measure, locally manufactured, top quality products that are delivered and installed within our committed time frame to you.

We pride ourselves on our quality and service and offer a warranty on all products manufactured in our factory, that they will be free from defects in material and workmanship, for a set period ranging from 2 to 10 years from date of delivery. This warranty is given subject to certain conditions.

QUICK TURNAROUND

We have an 8000m² purpose-built factory and are able to manufacture within a maximum of two weeks from signed off order*. Our service ethic includes the highest quality control, which is why we confidently offer 2 to 10-year warranties, depending on the product.

SECURITY WITH STYLE

Security shouldn't come at the expense of style. ShutterGuard® Aluminium Shutters are stylish, rustproof and perhaps, more importantly, through innovative construction, they also provide high-end security when closed. So you'll have complete peace of mind when away from home. Think of it as a haute couture suit of armour.

*Excluding delivery, which requires 5 working days.
